

REMARKS

A restriction has been made on claims 1- 42. Claims 11-14 and 35-37 have been grouped into Invention I and claims 1-10, 15-34, and 38-42 have been grouped into Invention II. Withdrawal of the restriction requirement is respectfully requested. Applicants traverse the restriction requirement because search and examination of the entire application would not be a serious burden on the Examiner. All sets of claims are related to semiconductor devices having a first trench having a first width and a second trench having a second width. Furthermore, a search of the structure claims would involve searching for methods for forming trenches. Accordingly, examination of all the claims is not a serious search burden on the Examiner. However, if the restriction requirement is not withdrawn, Applicants elect to prosecute, with traverse, the invention of claims 1-10, 15-34, and 38-42 (Invention II). Contact me if there are any issues regarding this communication or the current Application.

Respectfully submitted,
